## Coin Lore

## Making Sense of Rolled Cents by Bill Groom

Name four things that can be rolled .... balls, barrels, tobacco and coins, of course. Many collectors seek to assemble roll sets of coins, and the most popular issues tend to be more affordable Lincoln Cents. Without breaking the bank, a collector can piece together an uncirculated set of Memorial Cents, lacking the mint errors, the rare varieties like overdates. Rolls of wheat back cents, dated 1934-58, are far more affordable in circulated grades.

For exonumia collectors, those who collect coin-related items like tokens and medals, there's another form of rolled cent. These were/are typically produced on a rolling machine at fairs and other events. Whether sold or given to attendees, these rolled cents are collectible as mementos. They would often promote a product, an event or even a political candidate. Here are three such examples ..

The first rolled cent on the left displays a pictorial of the 1933 Chicago Fair. The center cent was made for members of the "Toilet City Coin Club" located in Flushing, NY. Whoever said that coin collecting was a dull hobby never saw the likes of this one. Thirdly, there's a rolled cent, promoting McGovern for President in 1972. He lost. Perhaps, the laughing jackass logo wasn't such a good idea, after all ....

For the record, cents aren't the only coins that have been subjected to a rolling press. The practice seems to have started at the Columbian Exposition in Chicago in 1892. Nickels, dimes, quarters, halves and even dollars have been rolled and stamped in the process. Generally speaking, the higher the denomination and the more interesting the stamp, the higher the price. Try and find some ...
